[INFO] Initializing Data Cleaning...
Original dataset shape: (100, 5) (Checking for Null Values)
Cleaned dataset shape:  (97, 5) (Null Values Removed)

--------------------------------------------------
MODEL 1: LINEAR REGRESSION
--------------------------------------------------
[SUCCESS] Linear Regression model trained.
[RESULT] Mean Squared Error: 31.50

--------------------------------------------------
MODEL 2: LOGISTIC REGRESSION
--------------------------------------------------
[SUCCESS] Logistic Regression model trained.
[RESULT] Classification Accuracy: 65.00%
